EXPERIENCE

SENIOR FRONT END ENGINEER, YELDMO

Mar. 2017 — Present

Building user-centered mobile ad experiences. Transitioning our Javascript SDK to Typescript. Yieldmo ads reach more than 60% of smartphone users.

SOFTWARE ENGINEER, YELDMO

Apr. 2016 — Mar. 2017

Built a native SDK for beautiful, interactive mobile ads. Developed easy-to-use and performant APIs for iOS + mobile web (including AMP, DFP, AppNexus).

MAKER, VIACOM LAB

Sep. 2015 — Jan. 2016

iOS development and human-centered design in an experimental team at Viacom.

SENIOR DESIGNER & DEVELOPER, DALI LAB

Sep. 2014 — Aug. 2015

Implemented novel iOS and web app interfaces. Mentored student lab members.

COFOUNDER, NEBULOUS GAMES

Jan. 2014 — Aug. 2015

Released an iOS word game. Development in Objective-C with SpriteKit.

TECHNICAL WRITING INTERN, INFORMATICA

Jun. 2013 — Aug. 2013

Wrote and updated user documentation using D.I.T.A & created training videos.

DESIGN DIRECTOR, THE DARTMOUTH

Jan. 2013 — Jan. 2014

Led a team of 15 student designers to create graphics and layout for the daily newspaper. Defined best practices for print and web design.

SKILLS

INTERESTS

PROJECTS

UNCRUSTIFIER

XCODE EXTENSION — November 2016

I created Uncrustifier as an Xcode Source Editor Extension to help iOS developers format code. We released the plugin as an open-source project, and have been delighted to receive contributions and feedback from the community on Github.

FOLDLINGS

iOS APP — August 2015

A tool for creating and simulating 90-degree pop-up books with arbitrary shapes. iOS development in Swift using SceneKit. Created with Marissa Allen and Tim Tregubov.

WORD BLASTOFF

iOS WORD GAME — June 2014

A physics-based word game, now available on the App Store. Pixel-perfect design and development with Objective C, using SpriteKit. Created with Michelle Khare.

ARBOR BIOLOGY

UNITY APP — April 2014

3d visualization software for annotated phylogenetic trees. I created mockups, built a parser for the tree format, and developed game components in C#. Created with DALI Lab student members.
